

FEATURES

Irrigation Type to suit the precision

Easy to use, User Interface

Scheduled Water, Fertigation and
Filter Flush Management

Irrigation data collection and Analysis

Interface with Sensors

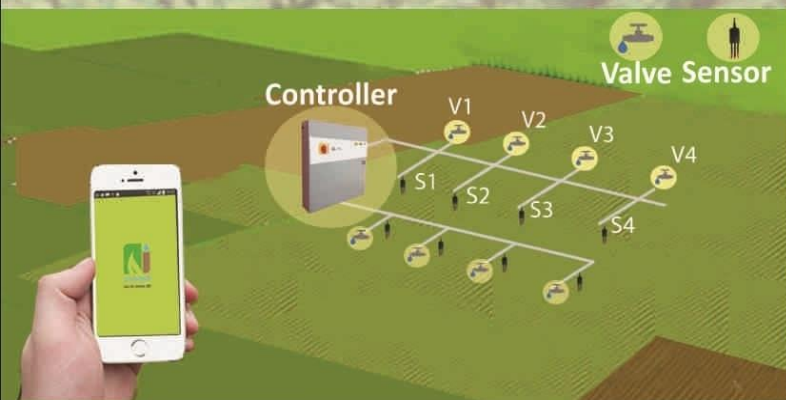

High Voltage

Lightening &
Thunder

Harsh Electrical Environment

NIKASH
Automatic Irrigation controller

Protection of assets like Motor/Controller etc..

Supports ventury,
motor based
and doser
Fertigation
feed

BENEFITS

Better crop yield
with effective
Irrigation
and Fertigation

Reduce
Labour & Fertilizer

Save Water

Save
Electric Bill

Saving of
Labour,
Water,
Fertilizer
and Electricity

Supports
automatic
filter flush

Provides options based on
Precision and Cost
